TRAINING SEMINARS AND WORKSHOPS

Equip your church through one of our interactive seminars! Our training seminars are not traditional sit-down presentations. There is much motion, participation, and discussion involved. These programs will leave participants excited as they talk about Biblical topics and active methodology. Each seminar engages in relevant discussions with revolutionary ideas for ministry and personal growth.

Growing In God's Garden

Growing in Christ is not a one-size-fits all method. How one person grows will look different than another person. Discover the basic tools for growth and how they apply to you personally. This family-oriented seminar is on faith and relationship development. It focuses on cultivating a personal walk with Christ and teaches about researched learning styles, thought patterns, and personality types, and how they apply to Bible study, prayer, outreach and more. All presentations are interactive, creative and will leave participants with goals for future growth. The program is excellent for a weekend retreat, or as a part of a community outreach plan for churches. Materials can spread into a 3-part seminar or be held on multiple days. Total time is 6-10 hours. **(Recommended for 10 years-Adult)**

Mentor Me

Learn how to put active mentorship into practice with our "mentor me" seminar. This program teaches and provides tools for creating a growing youth discipleship organization within a church. Its focus is on outward growth: teaching youth to become mentors themselves through a year-long process. Training takes up to 2.5 hours. Materials include a detailed mentorship handbook and growth plan templates for church implementation.

Creative Bible Lessons

Are you running low on ideas for family worship? Have you thought about what you will do to make the Bible come alive for your children? Not only will this 3-hour seminar offer some creative concepts for worship, Sabbath schools, or home-schooling, it will also show you how to come up with your own ideas by outlining the basic concepts behind powerful, unforgettable Bible lessons. Learn how to teach and apply scripture with your friends and family.

(Recommended for families of all ages, parents, or children's ministry leaders)

Puppetry Workshop

Puppetry ministries can reach many venues. They can be used in children's programming or community outreach, for teaching, preaching, and engaging interaction. This 4-hour seminar gets down to the nuts and bolts of puppetry. It demonstrates how to run puppets, how to build a stage, how to write scripts and how to make your own puppets. It also gives an outline on how to have a growing puppet ministry team and how to apply it in a mentoring capacity for youth. Seminar comes with demo puppets and stage, sample scripts, instructions and handbooks.

(Recommended for Youth Groups, Young Adults, or with families 8 years to adult.)

The Teaching Quilt

If you are a Bible leader who is teaching multiple age groups in a combined class, this seminar is for you. There are many types of ages and many types of learning styles among children. In combined classes you might have a 5-year old and a 12 year old in the same group. How does a leader keep both children engaged in the lesson? This hour seminar, designed for small churches, presents tools on how to develop and teach Sabbath Schools and classes for multiple age groups. Materials include a slideshow handbook and ideas handbook. **Recommended for Sabbath School leaders or Children's Ministry teams**
